## Information Centre For Workers Freedom

(a) Science, Science & Science for Freedom is the main slogan.

(b) Science will win, because, it works.

(c) No one made the Earth, and the question does not arise about the Universe.

(d) Labour produce the value therefore surplus - value, that is capital, thus, capital is unpaid labour or unpaid part of commodity.

(e) Commodity have 2 elements : (1) Matter (Natural resource) ; and (2) Labour.

(f) Natural resource have no value, thus, value of commodity is labour.

(g) But seller of labour power has not getting value, but wage, that is price of their labour power. So, wage is nothing, but production cost of labour power.

(h) Capitalist that is buyer of labour power has been appropriating the surplus-value. Thus, seller of labour power, labour is exploited.

(i) Therefore, buyers are exploiter of seller of labour power. So, relation of workers and capitalist is antagonistic & hostile.

(j) Colonial policy was the integral part of development of capitalism. Therefore, capitalist class conquered, and united the world; And it creates a world after its own image. In place of old local and national seclusion and self-sufficiency, they have introduced into every direction, universal inter-dependence of nations. Thus, the capitalism is neither a local nor a national but a world wide system. Therefore, “right of self-determination of nations” or national liberation is not possible under the global net of capitalism; Or, replacement of capitalism is not possible in one country alone.

( k ) Historically, it was progressive & revolutionary role of the capitalist class. Therefore, fight against colonial rule to back self-dependent economy that is return to pre-capitalist system, which is quite impossible is not only conservative, but also reactionary job. But fight against capitalist mode of production for social/commune/common ownership of means of production by working class is not only progressive, but also revolutionary work.

(1) The capitalist can not exist without constantly revolutionizing the instruments of production , and thereby the relations of production, and with them the whole relations of society. Thus, capitalist society is a society of certainty of uncertainty. Capital can not exist & survive without reproduction, and circulation but effect of reproduction is overproduction; And over production is the reason of crisis, that is stock of capital . Stock of capital is recession, that is problem of circulation. Therefore, for solution and required circulation of capital is close down of factories & farms , destruction of commodities & structures , war, killing etc, is must and result of these so many capitalist became bankrupt, and down to wage slave. On the other hand the effect of recession is increasing the unemployment, miseries & sufferings and dis-gradation of working class is quite natural and its unavoidable. In fact, recession is nothing but revolt of means of production against property relation of existing conditions of society . Therefore, due to recession the capitalist class has been bound to reach a contact for control the production, and , no doubt its totally against their class character , thus, capitalist class became unfit to develop the society for private ownership. Therefore, capitalist class has become reactionary , on the other hand, working class is only eligible to replace the so old capitalist society by a communist revolution, by a socialist society. So, consequence of contradiction of capitalists and workers is socialization of means of production, that is communism. Therefore,

capitalism is the foundation of classless society, because, it-self has been creating the all pillars, instruments and forces to replace it by destroying it-self for the conditions of its existence.

(m) Consequence of repeated recession is Socialism, and this the only solution of capitalist crisis, and its inevitable. In socialism, there is no private or state property, no selling & buying, no exploitation, no parasitic, no right of inheritance, no class, therefore, there is no politics or state or no state related organisation. or no state protector i.e IMF, WB, WTO etc . Thus, it is a class less society. So, each & every body is equally dignified, that is there is no discrimination within human being, that is no identity by gender, ethnic , nation, religion, language, race or color . Not family but individual is the lowest unit of the society, and all are scientific and will work to win the nature including body of human being to fight against death, thus all are ever green. So, all are free with full of love & affection, and having sex is not for only reproduction or merely recreation but for a good health also; And all children will get equal opportunity & benefit that is equal treatment from the society. And sure, arms and arms forces will take place at the museum of history . So, there is everlasting peace.

(n) Ownership of all means of production by society/ commune is communism and its a plan full production system that is production for all which is

required . Therefore, there all are worker, but no one is wage slave or master.

(o) All social production & activities will conduct & coordinate by a association ; And every body is fit & elligible to contest & hold any post of the association, but subject to re-call.

(p) As capitalism is a world wide system, therefore, it is not possible to replace the capitalism, locally or nationally. On the other hand, workers have no nationality and country, but they have a world to win by losing their chain. Therefore, range of socialist revolution is Universal. So, united action of the leading countries, that is G-7, at least is one of the first conditions for the emancipation of the wage slaves. So, socialism is not possible in one country alone. And its only job of working class.

(q) To replace the capitalism alone working class is revolutionary. Therefore, all other classes including peasants are reactionary.

(r) Since world war-2, I.M.F the world lord, therefore, has been controlling the world economy, and protecting the interest of reactionary capitalist class, thus, state became infact defunct. So, nation state is dead.

(s) Unity of the workers of the world is the first condition to overthrow the so waste & oldest capitalist society.

(t) A world Association of Working Class for Class less Society is option less condition to form the working class as a class and to unite them. And its historical necessity .

(u) Workers of the world will form it, which is for only a communist revolution, thus it is neither a local nor a national but a global and only & alone a party of working class. Organisational principle of communist party is only communistic , that is , each & every member is equally dignified; And within a cooperative & lovely relation , thus, its a party of friends of communist revolutionay. Therefore, there is no necessity of any leader, any teacher, any hero, or any guide or any kind of savior in communist party. Rather all these are parasitic elements and against equal dignity of all. Because, if there is any “great” , there is some more “ ordinary”, therefore , there is discrimination. No doubt, 23 pairs of chromosome is by born element of all, thus, if there is no difference to get facilities and opportunities from society, certainly each & every body is equally qualified; So, all are equally dignified. Furthermore, modern industries is the cause and basis of inter-dependent relation of workers, that’swhy they are in cooperation, therefore, there is no scope for “ individualism.”

(v) Science of Socialism was discovered, formulated and explained by Marx & Engels. But, Leninism is corruption of socialism. Because, it has expressed

distortion & confusion about capitalism, communist party & communist revolution and communism. So, Leninism is the shelter of decayed capitalism as a state capitalism.

(w) Leninists has done fraud even in translation of the Manifesto of the Communist Party too.

(x) With all historical limitation or error , the Communist Manifesto is still guide line of the communist movement. Therefore, a declaration with a up date statement of present conditions and situations of so old & so waste capitalism and so reactionary capitalist class is required to do the same work.

(y) Rejection of Leninism is must to re-build the communist movement. So, no doubt, that the Workers will win their world , therefore, all classes will vanish that is end of class rule is reality , thus, whole human being is free . Therefore, all are free from class concept and also from unscientific concept and attitude, thus all are scientific, so it is a scientific society.

(z) Information Centre for Workers Freedom (ICWF) will cooperate to rebuild the communist movement and to reconstruct the communist party for a communist revolution for a scientific society.
