

**NO
LENINIST PARTY
IS
COMMUNIST PARTY**

Shah Alam

Introduction

There are so many Leninist parties has been working in this world with various tactical line of action including killing of their self-declared class enemy to occupy the state powers but by the claim of all Leninist parties they all are communist party. The Bolshevik party has transferred the name of it as communist after takeover the state power of Russia under the leadership of Lenin by a planned military coup-1917.

Therefore, there is a belief that the Leninist parties are communist party. Yet, there are so many activists are working with these parties as considering them as communist with good faith to Lenin, though they are not free from dissatisfaction about their respective party bosses. Yet, a section of working class is under the influence of these Leninist parties.

Undoubtedly, capitalism will vanish by the existing condition of capital by a communist revolution, which is only job of working class alone. Therefore, unity of workers of the world is the first condition for the emancipation of working class by communism- a society free from exploitation by the common ownership of means of production by disappearing the private ownership. But, it's not possible in one country alone, because, capitalism is a worldwide system.

Therefore, a working class party is unavoidable condition to unite the workers of the world to fight against wage slavery to

vanish it by vanishing the selling and buying system by vanishing capital by ending the production of commodity to end the class and class rule along with all instruments and weapons including state, political parties etc of class to free the whole human being from all such oppression, man by man, by the communist society –a classless society.

Thus, a working class party for the same aim is a communist party.

So, a communist party is a scientific party to work for a scientific society with communist principle, thereby, a communist party is free from all such unscientific things to consider, care and practice including ideology.

Marx has discovered the science of communism, thus, a communist party is for science of communism to consider, care and practice it to determine the course of action of the party.

Certainly, a communist party is the party of communists, thus, all are equal and friends in the communist party.

But, Leninist parties? No. No Leninist party is party of equal.

Rather, Leninist parties are multi-class party with bosses and workers or leaders and followers for Leninism to occupy the state power to control the labour market absolutely by the state ownership of means of production along with politics of state capitalism, claimed democratizations of state and so-called right of self-determination of nations to develop the

false national economy by exploiting the wage slaves by producing commodity to accumulate capital for capitalist interest by confusing and dividing the workers of the world by countries and nations, with a discriminatory and undemocratic organizational policy – the ‘democratic centralization’ to ensure the absolute and extreme dictatorship of bosses to rule and oppress the working class and contenders.

So, no Leninist party is communist party, and Lenin was never a communist but servant of capitalist interest by exercising the Leninist politics by founding a state of state capitalism to protect the decayed capitalism but claiming it as socialist state to confuse and cheat the workers of the world.

Therefore, yet the moribund capitalism is exist with a so reactionary capitalist class along with all danger by the sufferings from repeated recession- a non-curable disease of capitalism. Though, the disabled capitalist class has founded so many global authorities including IMF, to avoid the recession by controlling the world economy by these syndicates to protect the moribund capitalism, but failed.

Thus, the reactionary capitalist class as a whole is suffering from insanity by the heavy load and pressure of the over stock. Thereby, increasing of miseries and hardship of working class, labour unrest, rate of unemployment, bankruptcy, riot, war, or war-war situation or militarization of politics or exercise of more & more fascist & fundamentalist politics including religion, racism, ethnicity,

nationalism, sexism etc nonsense are regular phenomena of the so old capitalism. So, the moribund capitalism with such anarchy by the revolt of new and newer means of production against the capitalist relation is not safe, secure and suitable even for capitalist class to live. Therefore, there is no reason to survive and continue the moribund capitalism.

But, workers of the world are not united to demolish the capitalist society by vanishing the capitalist class by vanishing the wage slavery by ending the selling and buying by ending the production of commodity to vanish the capital by vanishing the private property, by the united forceful action of workers of the world.

Thus, a communist party is not only necessity but also unavoidable condition to unite the workers of the world for the same aim and objects.

So, emergence of a communist party is a historical necessity.

Therefore, it's a historical necessity to unmask the ugly face of Lenin and Leninist bosses, and thereby, it's so important to reveal the cheating, forgery and falsifications of Leninist parties as communist party to rebuild the communist movement to form a communist party to unite the workers of the world to work for a communist revolution for communism.

No doubt, no ideology or no capitalist party is helpful for the working class rather, all such nonsense and rubbishes are dangerous and harmful for the working class. But, Leninism,

among the all customary ideologies is the most dangerous and Leninist parties are the most harmful party for the working class

Thus, its need to public the misdeeds and crimes of Lenin, Leninist bosses, and Leninist parties against working class.

So, it's a historical necessity to mark and indentify factually and scientifically that the Leninist parties are not communist but reactionary capitalist party , to form a communist party to fight against all nonsense customary belief and faith to Lenin and Leninist parties to work to free the whole working class from the dangerous influence and suicidal illusion of Leninism-the corruption of science of communism by rejecting and abandoning the poisonous Leninism and reactionary Leninist parties.

Our effort by publishing this book is to work for the same purpose.

Any such cooperation from anti-capitalist to determine and marking our mistakes or errors including grammatical to improve the standard of this book is cordially invited on the basis of scientific communism.

But, no Leninist version is welcomed and considerable.

Shah Alam

Dhaka, 18th August, 2014.

NO LENINIST PARTY IS COMMUNIST PARTY

There are so many Leninist parties and groups in the Leninist camp. But, all the Leninist parties are communist party by their claim.

But, is it fact? No.

Because, there are a lot of reasons. Some of these reasons we will mention to prove the falsification of such false claim of the Leninist parties as bellow. But, the narrated each and every cause is independently enough to prove that the Leninist party is not at all communist party.

[1]

Unity of workers of the world is the first condition and united action of the leading civilized countries at least is one of the first conditions for the emancipation of the workers by the description of the Manifesto of the communist party.

Therefore, a global party of working class is unavoidable condition to materialize the above mentioned conditions. Thereby, a communist party is a party to do the same. So, a communist party is a global party.

But, Leninist parties are not global party. Thus, no Leninist party have scope to do the so.

So, no Leninist party is communist party.

[2]

Working class is one, the exploiter of working class is capitalist class is one, the cause of miseries of working class is same and one that is the capitalist private property, the condition for the emancipation of working class is one, thereby, the aim of working class is one to win freedom by freeing the whole human being by ending the private property by ending the wage slavery by ending the class and class rule therefore, the party of working class is a party to unite the workers of the world to fight against capitalist class by fighting against wage slavery to end it by a communist revolution to conquer the socialist society for their emancipation is a single one party. Therefore, a working class party is a communist party to do the same. Thus, not so many but a single party is a communist party to conquer the communism. So, a communist party is a single one party.

But, Leninist parties are a combination of different classes to serve the interest of private property including claimed nationalist and patriot capitalist. Noted, competition, contest, contradiction, conflict and division etc are so common and general character of private property holders for their sectarian interest, originated from the private property. Therefore, Leninist parties are not free from all such heinous character of private property holders thereby, inner-conflict and division of the Leninist parties are not only common but also an inherited characteristic but unavoidable consequence of the self-action of these parties by the terms and conditions of Leninist politics to serve the private property holders including reactionary peasants. Thus, there is no such Leninist party which is free from division, in general.

Therefore, there are so many Leninist parties by the same reason and cause. Thus, no Leninist party is working for the same aim to vanish the capitalist exploiters for the emancipation of the exploited working class.

So, no Leninist party is communist party.

[3]

A communist party have no interest separate and apart from those of wage slave as a whole by the description of the manifesto of the communist party. Therefore, a communist party is a party to serve and protect the interest of the working class alone. Thus, a communist party is a party for the interest of working class. So, a communist party have nothing to do except serving the interest of the working class.

But, Leninist parties have interest for so many fractions of middle class including reactionary peasants . Therefore, Leninist parties are working to serve the interest of multi-classes. Thus, no Leninist party is the party of working class interest.

So, no Leninist party is communist party.

[4]

The communist manifesto has described as rightly as is: “The weapons with which the bourgeoisie felled feudalism to the ground are now turned against the bourgeoisie itself.

But not only has the bourgeoisie forged the weapons that bring death to itself; it has also called into existence the men who are to

wield those weapons — the modern working class — the proletarians.”

Therefore, a communist party is not only necessary but an unavoidable condition to unite the workers of the world to confirm the death of the capitalist class.

Thus, a communist party is a party of only working class to do the same. So, a communist party is a class party

But, a Leninist party is a combination of various classes along with, peasants etc. Thus, a Leninist party is not a class but multi-class party.

So, no Leninist party is communist party.

[5]

A communist party is a party to unite the workers of the world for a communist revolution to end : Wage slavery; Selling and buying; Commodity; Capital; Exploitation; Antagonism; Private ownership of the means of production with right of inheritance; Corruption; Crime; Punishment; Violence; Killing; War; Disparity and discrimination among the human being; Nationality; Ethnicity; Creeds; Ideologies; Traditional cultures and customs; Cultism; Worship; Heroism; Unscientific and capitalist education system; Sexism; Class and class rule; All parasitic and exploitative organizations including state, UN, IMF etc; And politics, for the emancipation and freedom of all to do anything including love and union freely, and all adults will try to win the nature including body by defying the death by developing the all such required modern and sophisticated instruments and technologies for a most modern and comfortable lives for all.

But, all Leninist parties are working to unite the workers, peasants and so-called nationalist of a particular geographical territories for a national democratic/ new democratic/ people's democratic revolution to capture the state power to build the so-called national and self-dependent economy to liberate the nations which is a poetic , romantic, and emotional but false and bogus political propaganda to provoke and deceived the workers to join with such movements for capitalist interest to increase the volume of capital by increasing the rate of exploitation by the absolute & extreme control over the labour market by the state ownership of means of production and dictatorial state power exercised by the extreme & extreme dictators by oppressing and overpowering the wage slaves and contenders by the brutal actions of the arms forces to serve all elites including political.

Therefore, no Leninist party is against: Wage slavery; Commodity; Capital; Exploitation; Corruption; Crime: Punishment; Violence: Killing; War; Traditional cultures and customs; Cultism; Worship: Ideologies; Discrimination; Politics and state. Thus, Leninist parties are working to serve and protect the capitalist society for the capitalist interest but not working class for the emancipation of the workers of the world for freedom of all.

So, no Leninist party is communist party.

[6]

A communist party is a global party to communicate the relevant news and information of the movements of workers of the world to coordinate and develop the movements of workers to fight against wage slavery by fighting capitalist

class and to gear-up & speed-up the workers movement globally to replace the capitalist system- a global system by another global system-the communism by the forceful action of the workers of the world. Therefore, a communist party is a store of information and news of movements of workers of the world. Thus, a communist party is a party to collect and circulate the news & views and information of the movements of workers of the world. So, a communist party is the source of all required information for the communist movement.

But, Leninist parties are not working for such aim and objects; and they have no scope to unite the workers of the world for a communist revolution as because they are working either locally or nationally but not globally. Moreover, they are not fighting against wage slavery rather, Leninist parties are working to help and support the claimed nationalist capitalists to accumulate national capital to develop a claimed self-dependent national economy, as if the so-called national capital is not the unpaid labour therefore, the capital is not the fruit of exploitation and thereby the so-called nationalist capitalists are not the exploiter of wage slaves by buying their labour power. How funny!

In fact Leninist parties are not interested to fight against wage slavery to vanish it. Thus, Leninist parties are free from such duty and task to inform and communicate the news and information of movement of workers of the world ; And it's not their agenda to inform such news of workers movement against wage slavery, globally to speed-up the global movement of workers. Even, they have no such scope to do the same because of their limitation by the limit of Leninist politics. Thus, no Leninist party is the store of information of the movements of workers of the world.

So, no Leninist party is communist party.

[7]

About the range of the communist revolution, The Principles of Communism by F.Engels has described as is :

“— 19 — Will it be possible for this revolution to take place in one country alone?”

No. By creating the world market, big industry has already brought all the peoples of the Earth, and especially the civilized peoples, into such close relation with one another that none is independent of what happens to the others.

Further, it has co-ordinated the social development of the civilized countries to such an extent that, in all of them, bourgeoisie and proletariat have become the decisive classes, and the struggle between them the great struggle of the day. It follows that the communist revolution will not merely be a national phenomenon but must take place simultaneously in all civilized countries – that is to say, at least in England, America, France, and Germany.

It will develop in each of these countries more or less rapidly, according as one country or the other has a more developed industry, greater wealth, a more significant mass of productive forces. Hence, it will go slowest and will meet most obstacles in Germany, most rapidly and with the fewest difficulties in England. It will have a

powerful impact on the other countries of the world, and will radically alter the course of development which they have followed up to now, while greatly stepping up its pace.

It is a universal revolution and will, accordingly, have a universal range.”

Therefore, its very much clear that the communist revolution is not possible in one country alone by the above statement too. Because, the capitalist society is a global society thus, the replacement of capitalism by socialism is not possible in one country alone. So, the communist revolution to vanish the capitalist society is not possible in one country thereby, it is neither local nor national but a global event imposed by the reactionary capitalist class.

Thus, a communist party is neither local nor national but a global party to work for a communist revolution by the workers of the world for communism by vanishing the capitalist society. Thus, a communist party have no agenda except the communist revolution. So, a communist party is a communist revolutionary party.

But, Leninist parties are working for their claimed national democratic, new democratic or people's democratic revolution to establish the so-called socialism in one country alone, by grabbing the state power by any way even by the military coup, what did the Bolshevik party under the leadership of Lenin at Russia.

Therefore, no Leninist party is working for a communist revolution to end the wage slavery by replacing the capitalist society by socialism. Thus, Leninist parties are working against communist revolution by practicing the Leninist politics.

So, no Leninist party is communist party.

[8]

A communist party is a party of communists to work for a society- free from discrimination among the human being thus, the communist party is free from disparity among the members of it. So, all members of the communist party are equal with a lovely and sweet friendly relation.

But, Leninist parties are the party with some claimed great leaders, great teachers, great heroes, great saviors, etc & etc, as like as Lenin, Trotsky, Stalin, Mao. Ho-Chi, Che, Kim, Hoxa, Fidel etc & etc with a leader-follower or savior – distressed or teacher-disciple relation; And even, Leninist parties are not free from personal cult and cultism thus, there is discrimination and disparity among the members of the Leninist parties..

Therefore, Leninist parties are not the party of equal with a lovely and sweet friendly relation to work for a discrimination free society. Thus, Leninist parties are working to protect the discriminatory things including cultism.

So, no Leninist party is communist party.

[9]

The communist League was formed to unite the workers of the world to overthrow the capitalist class into the air for the emancipation of the workers of the world.

Therefore, the aim of the communist league has described in its rules, as is :

“Art. 1. The aim of the League is the overthrow of the bourgeoisie, the rule of the proletariat, the abolition of the old bourgeois society which rests on the antagonism of classes, and the foundation of a new society without classes and without private property.”

But, no Leninist party have such aim to abolish the “ old bourgeois society” – the “foundation of a new society without classes and without private property.”

Therefore, Leninist parties are not working by the same aim of the Communist League. Thus, Leninist parties are not working to abolish the capitalist society by the new society-socialism.

So, no Leninist party is communist party.

[10]

The First International Working Men's Association has described in its rules as is : “**Considering,**

That the emancipation of the working classes must be conquered by the working classes themselves, that the

struggle for the emancipation of the working classes means not a struggle for class privileges and monopolies, but for equal rights and duties, and the abolition of all class rule;

That the economical subjection of the man of labor to the monopolizer of the means of labor — that is, the source of life — lies at the bottom of servitude in all its forms, of all social misery, mental degradation, and political dependence;

That the economical emancipation of the working classes is therefore the great end to which every political movement ought to be subordinate as a means;

That all efforts aiming at the great end hitherto failed from the want of solidarity between the manifold divisions of labor in each country, and from the absence of a fraternal bond of union between the working classes of different countries;

That the emancipation of labor is neither a local nor a national, but a social problem, embracing all countries in which modern society exists, and depending for its solution on the concurrence, practical and theoretical, of the most advanced countries;

That the present revival of the working classes in the most industrious countries of Europe, while it raises a new hope, gives solemn warning against a relapse into the old errors, and calls for the immediate combination of the still disconnected movements;

For these reasons —

The International Working Men's Association has been founded.”

Therefore, its very much clear that the emancipation of working class is the job of only working class, by the said rules of the IWMA. Thus, no other except working class is revolutionary class. So, question does not arise to conquer the communism by the peasants or nationalist or patriot or military – the legal professionals to kill, destroy etc by the order of the political executives to serve the parasitic interest of the ruling class but they are not fit to consider as the member of citizens to enjoy even the fundamental rights – described by the capitalist constitution to form a capitalist state.

Even, if we agreed that there is languagestic error or limitation in relation to a few words of this statement of the said rules of the 1st International, but in general its ok . Thus, a communist party is not free from the same declaration by following and caring the said statement to work globally to form the working class as a class for their emancipation. So, a communist party is a party to care the mentioned rules to work for the same aim and object.

But, no Leninist party has formed for the same aim and object with the same or similar declaration to work.

Therefore, Leninist parties are working by denying and ignoring such important rules of the IWMA to serve the capitalist interest. Thus, Leninist parties are not working for the emancipation of the working class by communism.

So, no Leninist party is communist party.

Undoubtedly, all ideologies, creeds, religions etc, originated from the private property will disappear by the disappearance of capitalist society based on private property. Therefore, the communist society is a scientific society by ending the all such creeds, ideologies etc. thus, science –the code of creation is the practicing principle of the communist society to know the science, to understand the science, to care the science and to practice the science for the scientific development of society thereby, all are scientist in the communist society.

Therefore, a communist party is a party to work for a scientific society. Thus, a communist party is a scientific party. So, the practicing principle of the communist party is science but not ideology. Noted, Marx did not produce any such ideology but he discovered the science of communism.

But, Leninist parties have been working on the basis of Leninism- an ideology. Mao thought, Ho-Chi Min thought, Hoxa thought, Juche idea of KIM, etc all are ideology. Noted, Manu, Mosses, Confucius etc were the producer of so many ideologies to teach their disciples to build their respective nations to serve the parasitic interest of masters and lords and their beneficiaries.

No doubt, followed by them Lenin, Trotsky, Stalin, Mao, Kim etc no one is free from such claim to produce such nonsense ideologies to teach their disciples as they were marked as great teacher, guide, leader, etc & etc by the declaration, rules and laws of their respective parties and states as like as Mosses, Manu, Confucius etc . Sure, some

bosses of the Leninist parties were marked by so many titles as great and extra-ordinary by the national anthem and constitutions of their respective parties and states as Moses, Manu etc were marked.

Therefore, Leninist parties are not for science of communism but working on the basis of ideology. Thus, Leninist parties are not working to end the ideologies to win the scientific society.

So, no Leninist party is communist party.

[12]

The communist manifesto has described so rightly that: “ Of all the classes that stand face to face with the bourgeoisie today, the proletariat alone is a really revolutionary class. The other classes decay and finally disappear in the face of Modern Industry; the proletariat is its special and essential product.

The lower middle class, the small manufacturer, the shopkeeper, the artisan, the peasant, all these fight against the bourgeoisie, to save from extinction their existence as fractions of the middle class. They are therefore not revolutionary, but conservative. Nay more, they are reactionary, for they try to roll back the wheel of history.”

Therefore, its very much clear from the above quotation that the peasants are not only conservative but also reactionary; and the working class alone is revolutionary to replace the capitalist society by communism.

So, a communist party is not the party of reactionary peasants or any reactionary forces by taking account the above mentioned statement of the communist manifesto about the role of the classes of the capitalist society. Thus, a communist party is only a working class party for a communist revolution to vanish the reactionary classes for communism.

But, the Leninist parties are the party of reactionary peasants too, with one of instruments of peasants –the scythe as one of the signs of the symbol of the party. Therefore, Leninist parties are not revolutionary but reactionary party along with such symbol and the political programs of the reactionary peasants by the standard of the communist manifesto.

Noted, the fruit of union of a Horse and Ass is nothing but a Mule; Therefore, a Leninist party with combination of reactionary peasants and revolutionary working class is nothing but a so reactionary force to create disturbance and obstacle to the transformation of the capitalist society into communist by their reactionary jobs. Thus, Leninist parties are reactionary party by ignoring and denying the communist manifesto without any explanation or publishing any document by proving wrong the communist manifesto about the role of the classes.

So, no Leninist party is communist party.

[13]

The Capitalist society is a global society thus it's a single one society and currently ruled by the IMF- the controller of the world economy, founded by the winners of the 2nd world war

including Leninist boss Stalin to serve the capitalist interest to protect the moribund capitalism.

But, Leninist parties has been determining their tactics of war by denying and ignoring the global net of capitalist society by a false and artificial concept of existence of different societies in this capitalist world ruled by the different classes in different countries or geographical territories by the basis of Leninism. Even, the CPSU did not hesitate to distort the CAPITAL by K. Marx to justify its such misdeeds.

Certainly, a communist party is a party to work on the basis of facts of statement of the societies including capitalism-producer of all necessary tools and weapons including working class to vanish the capitalist mode of production by a communist revolution.

Sure, the Communist League has described the condition of the capitalist society as an “old bourgeois society” to replace it by the new society- communism by taking account the factual statement of Marx and Engels about the range and condition of the capitalist society.

Certainly sure, now the capitalist society is in moribund condition thereby, its under the intensive care of the some global agencies including the IMF.

Therefore, a communist party have no scope except considering the present condition of the capitalist society with a disabled but reactionary capitalist class to determine the tactics and course of action of the party to fight against all the controlling authorities including IMF, UN etc of the capitalism. So, a communist party is a party to work on the

basis of factual statement of the society along with current condition.

But, Leninist parties are working on the basis of the false statement of Lenin and other Leninist bosses including Mao, about the capitalist society to serve the capitalist interest by creating confusion about capitalist society too.

Therefore. Leninist parties are not considering the facts of current world economy – ruled by the IMF, rather, they are trying to hide the real conditions of capitalism by their tactical line of actions for so-called national democratic or people's democratic etc false revolution ,thereby, they are working for the capitalism but not communism. Thus, Leninist parties are capitalist party.

So, no Leninist party is communist party.

[14]

Capitalism is the foundation of socialism –the replacement of capitalism by social/commune/ common ownership of means of production. Thus, there is no Great Wall of China between socialism and communism, moreover meaning of both the terms is same.

But, Leninist parties has been marking and determining an artificial difference between socialism and communism by claiming that the state capitalism is socialism and such Leninist socialism is the foundation of Leninist communism, which is totally lie, false and bogus.

Therefore, Leninist parties are for such lie to create the confusion among the wage slaves of the world to provoke and hypnotized them to create an illusion among the working class to work for a Leninist state as considering such Leninist state as socialism.

Noted, if the Leninist version about socialism and communism is right then the number one article of the rules of the communist league, is wrong, what we have mentioned earlier. But, no doubt, not the mentioned article of the rules of communist league but the fabricated Leninist version on socialism and communism is not only wrong but also false.

A communist party is a party to work for communism/socialism – a new society by the replacement of old capitalist society but not for any such Leninist state or socialist society between capitalism and communism.

But, Leninist parties has been working for such nonsense Leninist socialism –the foundation of so-called communism by such false statement of Leninist politics on such false socialism and bogus communism. Thus, Leninist parties are not working for communism.

So, no Leninist party is communist party.

[15]

“From that time forward, Socialism was no longer an accidental discovery of this or that ingenious brain, but the necessary outcome of the struggle between two historically developed classes — the proletariat and the bourgeoisie.” - F.Engels, **Socialism: Utopian and Scientific.**

Therefore, its very much clear that the socialism is the outcome of the contradiction of the capitalist and working class by the above mentioned statement of F.Engels. Thereby, socialism is a historical fact by the historical consequence of the antagonism of capitalist and working class by the by born condition of the capital. In fact, socialism is the historical consequence of capitalist society by the existing conditions of capital, thus communism is inevitable by the historical defeat of capitalist class by the working class by the historical consequence of capital.

So, communism is not the discovery of this or that ingenious brain like Lenin or Trotsky, or Stalin or Mao, and undoubtedly, socialism is not the product of some extraordinary men or its not the result of some heroic jobs of some claimed heroes or its not the effect of teaching of some claimed great teachers or its not the outcome of the claimed great jobs of some so-called great leaders. Rather, workers have need a communist party, but not so-called great leader or teacher to lead and teach them to work for their emancipation.

But, Leninist boss Stalin said that Lenin was born for the Russian socialist revolution and the political system of the USSR was the discovery of Lenin from his ever talented brain ; And more or less all Leninist parties has acknowledged that the extra-ordinary and great leaders like Lenin, Trotsky, Stalin, Mao, Ho-Chi, Kim. Hoxa, Fidel, Che etc are essential to win socialism. Thus, they has been denying and ignoring the revolutionary role of the working class to win the socialism even by ignoring the above statement of F.Engels too.

Therefore, a communist party is a party to work for the “outcome of the struggle between two historically developed classes — the proletariat and the bourgeoisie.”

But, Leninist parties are working to build the Leninist state by the heroic action of the so -called extra-ordinary and great leaders like Lenin, Trotsky, Mao etc.

Therefore, Leninist parties are not for the revolutionary jobs of working class to win socialism but for some so-called heroes or teachers or leaders to occupy the state power. Thus, Leninist parties are not for the “outcome of the struggle between two historically developed classes — the proletariat and the bourgeoisie.”

So, no Leninist party is communist party.

[16]

The communist revolution is nothing but the culmination of the contradiction of the sellers and buyers of labour power of the world to solve the contradiction of sellers and buyers of labour power. So, outcome of the contradiction of the sellers and buyers of labour power of the world is the socialization of means of production by vanishing the private ownership of means of production-the cause of contradiction of sellers and buyers of labour power, and that is the communism.

Thus, communism and communist revolution both are unavoidable and inevitable by the condition of contradiction of the sellers and buyers of labour power of the world to solve it to end the antagonism. Because, capital it-self is the cause of contradiction among the sellers and buyers of labour

power; Because, capital is nothing but the unpaid labour, thus, as a buyer of labour power to produce commodity to accumulate the capital –the capitalist class is exploiter and working class –the seller of labour power is exploited, therefore, there is contradiction among the sellers and buyers of labour power by the condition of capital, thereby, capitalism has no scope to solve the contradiction of capitalist class and working class. Thus, class struggle is unavoidable condition of the capitalist society.

Therefore, as a working class party, a communist party is a party to work for the class struggle to strengthen it to solve the contradiction of the sellers and buyers of labour power of the world by a communist revolution. So, a communist party is a party of class struggle for a communist revolution to end the class and class struggle for ever.

But, no Leninist party has acknowledge or care such reality of communist revolution. Or, no Leninist party is the party of class struggle to strengthen the working class struggle against capitalist class for a communist revolution –the culmination of class struggle to end the class and class struggle by the communist society. Therefore, Leninist parties are not for the solution of contradiction of sellers and buyers of labour power to serve the capitalist interest. Thus, Leninist parties are not working for the interest of working class to end the miseries of working class by ending the contradiction of sellers and buyers of labour power of the world by a communist revolution.

So, no Leninist party is communist party.

Division of workers of the world is helpful for the capitalist class but it's so harmful for the workers thus, any such policy to divide the workers of the world is against working class interest. Therefore, the capitalist class has been creating so many policies to divide the workers of the world to protect the capitalist class from its disappearance by the historical consequence of capitalism by communism.

A communist party is a party to work to fight to vanish all such harmful policies to divide the working class, introduced by the capitalist class to unite the workers of the world to make sure the historical consequence of capitalist class by the working class.

But, the Leninist politics are for the so-called right of self-determination, which is so useful and effective to divide the workers by nation and country. Even, this politics is effective to hypnotize the workers with such nonsense but emotional poetic concept of patriotism to ignore and disown the own class interest and class identity of working class to win the so-called national liberation to accumulate national capital for national development by serving the local capitalist but without pay for participating in the that harmful movement for working class. Therefore, Leninist parties are working for serving the capitalist interest by dividing and confusing the workers. Thus, Leninist parties are working to protect the capitalist mode of production by practicing the politics of so-called self-determination of nations.

So, no Leninist party is communist party.

A Communist party has acknowledged that the colonial policy was the integral part of capitalist development by defeating the self-defendant but so poor local economy. Thus, colonial policy was a progressive policy, has practiced by the revolutionary capitalist class. Sure, the colonial policy has lost its utility when the capitalism has become old thereby, the reactionary capitalist class has ended the practice of the said policy by founding the some global authorities including the IMF to serve the capitalist interest globally.

Therefore, there are so many new states has founded but not out of control of the IMF and other global authorities by the effect of ending the practice of colonial policy. Noted, founding members of the IMF were 51 including British ruled India, but now 198.

But, Leninist parties are against colonial policy by practicing the politics of so-called self-determination right of nations. Therefore, Leninist parties has been taking even the side of the reactionary forces, defeated by the revolutionary capitalist class to fight against the colonial rulers by declaring the country of the colonial rulers as enemy of national development by denying the historical facts of capitalist development by the manufacturing such fabricated and false stories about the past and so-called independent national economy under the global net of capitalism.

Noted, the communist manifesto has described as is:

“The need of a constantly expanding market for its products chases the bourgeoisie over the entire surface of the globe. It must nestle everywhere, settle everywhere, and establish connections everywhere.

The bourgeoisie has through its exploitation of the world market given a cosmopolitan character to production and consumption in every country. To the great chagrin of reactionists, it has drawn from under the feet of industry the national ground on which it stood. All old-established national industries have been destroyed or are daily being destroyed. They are dislodged by new industries, whose introduction becomes a life and death question for all civilised nations, by industries that no longer work up indigenous raw material, but raw material drawn from the remotest zones; industries whose products are consumed, not only at home, but in every quarter of the globe. In place of the old wants, satisfied by the production of the country, we find new wants, requiring for their satisfaction the products of distant lands and climes. In place of the old local and national seclusion and self-sufficiency, we have intercourse in every direction, universal inter-dependence of nations. And as in material, so also in intellectual production. The intellectual creations of individual nations become common property. National one-sidedness and narrow-mindedness become more and more impossible, and from the numerous national and local literatures, there arises a world literature.

The bourgeoisie, by the rapid improvement of all instruments of production, by the immensely facilitated means of communication, draws all, even the most barbarian, nations into civilisation. The cheap prices of commodities are the heavy artillery with which it batters down all Chinese walls,

with which it forces the barbarians' intensely obstinate hatred of foreigners to capitulate. It compels all nations, on pain of extinction, to adopt the bourgeois mode of production; it compels them to introduce what it calls civilisation into their midst, i.e., to become bourgeois themselves. In one word, it creates a world after its own image.”

Therefore, the revolutionary practice of the colonial policy by the revolutionary capitalist class has made the capitalist world by defeating all backward and local but poor economic systems. No doubt, defeat of local and backward economy along with privileged and beneficiaries from the mentioned defeated economies was quite normal and natural by the advanced capitalist economy and revolutionary capitalist class.

But, Leninist parties has been ignoring the communist manifesto to deny the historical facts to ignore the range of capitalist society and the conditions of nations under the global net of capitalist society. Therefore, Leninist parties has been creating wrong concept, false ideas, and misunderstanding about the capitalist society to hide the exploitation of local or native capitalist to serve the moribund capitalism. Thus, Leninist parties are working against working class.

So, no Leninist party is communist party.

[19]

The capitalist society has become old before the communist manifesto has public. Therefore, the capitalist class has lost its ability to rule the society. Thus, there is anarchy and

anarchy so, the capitalist class has been sufferings from insanity by the fear of losing their private properties by incurable disease of capitalism –the recession, the result of over production by the conditions of existing conditions of capital- (1) Reproduction: And (2) Circulation.

But, the capitalist class is not ready to acknowledge the historical consequence of it by the disappearance of capital by the working class, thus, the capitalist class has been trying to roll back the wheel of history by protecting the moribund capitalism by anyhow including rejecting the colonial policy by founding the UN, WB, IMF etc global agencies and authorities by losing the independency of states by introducing the politics of globalization. Thus, states are defunct under the rule of the global syndicates so, nation state is dead and thereby democracy is dead under the rule of the global authorities since founding the such global agencies.

Therefore, the disabled capitalist class is not only conservative but also reactionary for its such failed efforts by committing so many crimes against humanity including 2 world wars to protect the decayed capitalism now at death bed so, capitalism is in moribund condition with all forms of anarchy and autocracy along with serious insanity of reactionary capitalist class.

But, yet its exist. Because, there is no communist party to unite the workers of the world by considering such real conditions of the moribund capitalism with all such organizations including the IMF –the mightiest syndicate of the world, to fight against reactionary capitalist class to disappear it.

But, Leninist parties are working for national state to develop the national economy by the state capitalism but not considering the reality by acknowledging the rule of the IMF. Therefore, Leninist parties are trying to hide the existing conditions of the moribund capitalism to serve the capitalist interest by spreading wrong, false and miss-information about the condition of capitalism along with the rule of the IMF to confuse the working class by their politics of so-called democratic state for all people of the respective state, ruled by the Leninist party as an independent state, which is totally lie and bogus. Thus, Leninist parties are trying to protecting the moribund capitalism along with IMF and defunct states.

So, no Leninist party is communist party.

[20]

Undoubtedly, state will disappear by the disappearance of classes by the disappearance of private property. As because, state has originated from the private property to protect the interest of private property holders as their strongest and powerful class instrument and weapon to oppress and overpowering the slaves.

Records shows that the first Kingdom has founded by the founder of the Pharaoh Dynasty as a state about 3150 BC at Egypt. But, the first state with elected executives was formed at Greece by reducing the hereditary, and life long chief magistracy (ARCHON) with a historical advancement by c. 1050 BC; by 753 BC this had become a decennial, elected Archonship; and finally by 683BC an annual elected Archonship.

Therefore, the history of state is not ever long since the birth of human being. Noted, age of human being is not less than 200 thousands years but the history of state is not more than 5,500 years.

Thus, it's very simple that there is no reason to remain exist the state without private property as a repressive and oppressive machine of private property holders. Because, there is no utility of state in the classless society.

Therefore, a communist party is a party to work for such actions of working class to disappear the state by disappearing the classes by disappearing the capitalist private property.

But, Leninist parties are working to construct the new and new states by dividing the old but defunct states by the politics of national liberation along with new democracy with state ownership . Therefore, Leninist parties are not against state. Certainly, they are creating confusion about the function and role of the state including its origin to oppress the others as a powerful but so effective machine to overpowering the ruled classes and contenders of rulers ` . Therefore, state is nothing but a powerful oppressive machine for the interest of ruling class thereby, state is never a well-fear organization for all or state is never for all. Thus, the disappearance of state is the condition of freedom of all.

But, Leninist parties are not working for a stateless society rather, creating the illusion for a new state for all people with the Leninist party in power.

So, no Leninist party is communist party.

Currently the yearly cost and expenditure of defunct states of the world under the role of the IMF is not less than 29% of total income of the world. But, the cost and expenditure of state is nothing but a part of surplus-value, produce by the wage slaves.

So, maintaining a state by the cost of surplus-value is nothing but maintain a oppressive machine by exploiting the workers. Thus, if there is state, there is exploitation. But, socialist society is free from exploitation. So, there is no scope to maintain a state in socialism.

Therefore, the communist manifesto has rightly described as is: “In place of the old bourgeois society, with its classes and class antagonisms, we shall have an association, in which the free development of each is the condition for the free development of all.”

Therefore, not state but with an association of all by all for the free development of all of the world is socialism.

So, a communist party is a party to work for the same association of all of the world to coordinate and communicate the required information and production for all of the world by vanishing the all instruments and weapons of ruling classes, originated from the private property, including state, thereby, there is no such organization to limit or harm the freedom of anyone in socialism.

But, Leninist parties are working to grab or form a state to establish Leninist socialism, which is nothing but, state capitalism.

Therefore, Leninist parties has been denying the communist manifesto by practicing the Leninist politics of state capitalism to maintain a state by exploiting the wage slaves. Thereby, Leninist parties are working to maintain the exploitative system. Thus, Leninist parties are working against working class and communism by practicing the politics to maintain state.

So, no Leninist party is communist party.

[22]

No Leninist party has acknowledge any other Leninist party as Leninist except the party own. But, all the Leninist parties have acknowledged that the USSR, founded by the Bolshevik party, under the leadership of Lenin, was the first socialist state. Traditional capitalist leaders are also in the same line to sing the same songs. Therefore, there is a customary truth that the USSR was a socialist as like as the customary truth is as the Sun rise and sunset.

Sure, its visible truth too, but not fact thus, it's not true, that the sun is rising. Because, the Earth is orbiting in its axis around the Sun and the Sun is also orbiting in its own axis. So, there is no scope to rise the Sun according to Geo-Centrism - a false view of the unscientific and ignored but politically motivated people about the solar system, those were not free from bad intention and ill motive to justify the authority of masters and lords by the divine right from the

creator and maintainers of the Earth to rule the slaves and subjects.

Sure, no one before N. Copernicus (19 February 1473 – 24 May 1543) knows the solar system that the Sun is the centre of the said system, therefore, planets including the Earth are moving around the Sun. Rather, all were for the said customary faith and truth by the Geo-Centrism that the Earth is constant thus, the Earth is not moving, rather, the Earth is the centre, and the Sun is moving around the Earth. Therefore, all customary or visible truth is not always true or even not true. Thus, it's nothing more than the customary faith and visible truth that the USSR was a socialist country by the ill motivated political propaganda. In fact, the USSR was a state of state capitalism by its constitutions-1918, 1924, 1936, and 1977.

Therefore, no communist party have scope to acknowledge the USSR as socialist.

But, Leninist parties are not only acknowledging but also spreading the false and bogus stories about the USSR, fabricated by the Leninist bosses and Lenin him-self.

Therefore, Leninist parties has been spreading the false and lie about not only USSR but also Socialism to create wrong concept about socialism among the working class to confuse them to serve the capitalist interest. Thus, Leninist parties are not only liar about socialism but also working against socialism.

So, no Leninist party is communist party.

[23]

The Communist manifesto has described as is: “The Communists disdain to conceal their views and aims. They openly declare that their ends can be attained only by the forcible overthrow of all existing social conditions. Let the ruling classes tremble at a Communistic revolution. The proletarians have nothing to lose but their chains. They have a world to win.”

Certainly sure, a communist party have no scope to disown such important declaration to attain its goal by the forcible overthrow of all existing social conditions.

But, no Leninist party is free from lie about their politics and moreover, none of them has accepted or acknowledged the above mentioned declaration as : “They openly declare that their ends can be attained only by the forcible overthrow of all existing social conditions. Let the ruling classes tremble at a Communistic revolution.”

Therefore, Leninist parties are not working for the such aim. Thus, Leninist parties are working against communist revolution and communism.

So, no Leninist party is communist party.

[24]

Law has originated from the private property, and introduced by the masters to serve and protect their parasitic interest.

Code of Hammurabi (dating back to about 1772 BC) is the first written law in this world. Constitution of Solon (Solon: c. 638 BC – c. 558 BC) has played an important role to form the Greek State.

Therefore, law and concern agencies to ensure the proper practice of law by the rule of law are nothing but the weapons and instruments of ruling class to rule and oppress the other classes to serve and protect the parasitic interest of ruling class by protecting the lawful right of exploitation of private property holders.

But, if there is no private property, there is no private property holders to exploit thus, there is no class and class interest, so, there is no utility of law and law ensuring & enforcing agencies including judiciary.

Therefore, law and all concern agencies to enforce and ensure the rule of law will disappear by the disappearance of private property by a communist revolution.

Thus, a communist party is a party to work to confirm the disappearance of law and all concern agencies to enforce and ensure the rule of law, including judiciary.

But, Leninist parties are for rule of law.

Therefore, no Leninist party is communist party to work for a communist revolution to vanish the law and all concern agencies to enforce and ensure the rule of law for a classless society.

But, a communist party is a party to work to unite the workers of the world to vanish the capitalist society by communism, where there is no law to limit the freedom of any one to restrained any one to do anything what he like to do including love and union.

Thus, Leninist parties are working to serve and protect the capitalist society by practicing the politics of rule of law.

So, No Leninist party is communist party.

[25]

Not sex but the private property is the cause of discrimination, disparity and division among the human being. No doubt, women are not sex commodity, but the masters and lords has chained their bodies by so many rules and regulations to protect the private property by the legitimate inheritance of private property holders thus, women has been using as the reproductive machine of their husband as wives, to produce the legitimate inheritances. Therefore, women has been considering not only as a sex commodity to use by male for sexual pleasure but also sex slaves of male since the private property has introduced by the masters.

Capitalism is also based on private property. Thus, there is sexual harassment and violence against woman including rape as they are considering as sex slave in capitalism too. Though, there is movement for free love is running thus, the right of LGBT is recognized by the UN too. But, if there is no private property, there is no such necessity to protect the private property by the legitimate inheritance, thus, there is no

utility of such rules and regulations to chain the bodies of women. So, everyone will be free to do anything including love and union. Therefore, the end of private property with the right of inheritance is the condition for freedom of all. Sure, communism is a society- free from all such discrimination and division among the human being including sex, where everyone is only human being and everyone has freedom.

Therefore, a communist party is a party to work for a communist society to free the whole human being from any such sexual harassment and violence including killing, rape etc.

But, Leninist parties are working for the so-called freedom of woman by empowering the women by the unified family code to ensure the same share of private property for the inheritances ; And political power. Undoubtedly, such empowerment policy to do the same is nothing but an ill motivated bad effort to protect the private property by dividing the wage slaves of the world by sex too . Sure, the Leninist leaders have even failed to consider that the wage slaves have nothing to sale except their labour power, so no wage slave will be empowered by the such nonsense unified family code for same share for inheritance from private property; Because, they have no private property.

On contrary, the private property with right of inheritance is the cause of slavery of women. Thus, there is no reason to win the freedom of woman except vanishing the private property with right of inheritance. So, such nonsense unified family code is nothing but an ill effort to continue the sexual slavery of woman by considering the wives as the property of husbands to

do anything with them including rape by the brutal husbands too.

Noted, one of the 2 elements of a commodity is neither sex nor nationality or country but labour. Therefore, the price of a commodity is nothing but labour but buyers of labour power pay wage for labour power. Thus, wage slaves as a whole are exploited by the buyers of labour power. So, there is no scope to get any such relief from sufferings from exploitation by the any such false identity of workers by sex or race or nationality, or creed or religion etc. But, if there is no production of commodity to accumulate the capital by exploiting the wage slaves by buying their labour power by paying wage, there is no slavery including sex. Therefore, the condition of freedom of all is the ending the wage slavery by the united forceful action of the wage slaves of the world.

Furthermore, the communist manifesto has described as is: “The bourgeois family will vanish as a matter of course when its complement vanishes, and both will vanish with vanishing of capital.”

Therefore, not family but the individual is the lowest of unit of socialist society, thus, no such family code is required for the so-called empowerment of woman in socialism rather, all codes, rules, regulations etc for family, originated from the private property will disappear by vanishing of family by vanishing of capital.

But, Leninist parties are for so-called holy family by such unified family code too. Therefore, Leninist parties are not working to vanish the family to free the society from all such violence against women including rape along with vulgar

concepts of barbarous masters of the dark middle age. Thus, Leninist parties are not working for communism.

So, no Leninist party is communist party.

[26]

Killing –the forceful end of life is a brutal but inhuman action has originated from the private property. But, if there is no private property there is no such nonsense brutalities including killing. Sure, communism is a society free from all such inhuman things including rape, killing. Therefore, communism is a friendly and lovely society to love for love for a lovely life of each & everyone by ending the torture, cruelty, brutality etc.

So, a communist party is a party to work for communism for free love for all. Therefore, a communist party is a party of lovely friends for love for love for the lovely lives of all. Thus, a communist party is against all such brutality including killing,

But, Leninist parties are working for Leninist states with all instruments for torture, cruelty, brutality including killing and rape. Therefore, Leninist parties are the party of killers too. Lenin, Trotsky, Stalin, Moa, Kim, Ho-Chi, Palpot, Hoxa etc Leninist bosses were infamous killer in the history. Among them Stalin was the champion in killing and brutality etc, and Mao was so cruel to kill his opponent even if the target was his closest colleague for long time. Thus, Leninist parties are working against communist society to protect the capitalist society.

So, no Leninist party is communist party.

[27]

The end of wage slavery is communism. The communist manifesto has stated as is : “There can no longer be any wage labor when there is no longer capital.” Thus, the communist society is a selling and buying free society.

So, a communist party is a party to work to end the wage labor by ending the selling and buying by ending the capital for communism.

But, Leninist parties are not against wage labor . There was wage slavery and wage labor at USSR of Lenin; Even Lenin did not feel shame to brand the wage slaves of his state as bad workers in comparison to other countries. The rate of exploitation in his state was much higher than USA. Leninist parties are for state capitalism by state ownership of means of production to produce commodity to accumulate capital by exploiting the wage labor in high rate by controlling the labour market by absolute dictatorial power by the state ownership too.

Therefore, Leninist parties are working for state capitalism to protect the capitalism by protecting the wage slavery by using the state power. Thus, executives, officers, political bosses of Leninist states are exploiter and beneficiaries by buying the labour power of wage labor.

So, no Leninist party is communist party.

[28]

The communist manifesto has described as is : “ In this sense, the theory of the Communists may be summed up in the single sentence: Abolition of private property.”

Therefore, its very much clear from the above quotation that the private property will disappear in the communist society. Thus, the private ownership of land will abolish by the communist revolution. Thereby, as a means of production – the land is the common property of all of the world in communism.

So, a communist party is a party to work for abolition of private property for communism.

But, Leninist parties are for so-called land reform to chain the visible free man by the chain of private ownership of land what did Lenin by his land decree-1917 to serve the capitalist economy by ignoring and denying the above mentioned statement –described in the communist manifesto to abolish the private property. Sure, such land reform was an effective policy to confuse, provoke and divide the workers by the private ownership thereby it is so helpful and useful to increase and spread the false hope and bogus expectation for better life by the private property among the working class, but such hope is suicidal for the working class.

Thereby, Leninist parties are not free from such object to increase the illusion for private property among the working class by implementing the such land reform policy moreover, such policy is so effective to separate the workers of agriculture fields from the modern industrial workers. So, such nonsense capitalist policy for land reform is so helpful for the capitalist interest thus, it's against working class

interest. Therefore, Leninist parties are working for the capitalist interest by practicing and following such policy of land reform. Thus, Leninist parties are not working for communism by abolishing the private property.

So, no Leninist party is communist party.

[29]

Water, mineral resource etc are the natural resource thus all these are one of the 2 elements of commodity. But, if there is no commodity there is no private or state ownership. So, natural resources including water are useable things for all by common ownership of all.

Therefore, a communist party is a party to work to abolish the private and state ownership of means of production by common, thereby, natural resources will be free from the private and state ownership.

But, Leninist parties are not working for the same end. Rather, Leninist parties are working to protect the so-called national interest by the private and state ownership of the natural resources including water, oil etc. Even, they are supporting and depending the UN resolutions and laws for the water sharing too.

No doubt, the UN is not an organization for the interest of the working class rather, it was founded by the winners of the 2nd world war to serve and protect the capitalist interest globally.

Therefore, Leninist parties are working for the capitalist interest. Thus, Leninist parties are working against working class interest and thereby against the communist revolution.

So, no Leninist party is communist party.

[30]

The end of cheating, forgery, corruption etc nonsense is the condition for communism. Sure, no one except a cheat and fraud can disfigure any document to gain the undue and extra benefits and facilities. But, the CPSU has distorted the writings of Marx and Engels including the Communist manifesto, CAPITAL etc to justify its Leninist misdeeds as communist jobs to create wrong concepts and confusion among the working class to serve the capitalist interest. Even, the CPI (M) has manufactured a fake communist manifesto for the same reason by disfiguring the original.

But, a communist party is a party to work for communism by ending the all such disfiguration, corruption, cheating, forgery, contamination etc, originated from the private property.

So, a communist party is against all such capitalist rubbishes, including above mentioned things to end these nonsense for communism.

But, Leninist parties has been spreading such distorted writings of Marx and Engels by inherited such corrupt version from the CPSU. Therefore, Leninist parties has been spreading and creating so many wrong impression, false ideas, and miss-concepts about capital, capitalist society,

capitalist class, capitalist contradiction, exploitation, wage, wage slavery, wage slave, peasants, communism, communist revolution, communist party etc & etc to serve the capitalist interest by confusing the workers of the world. Thus, Leninist parties are working against working class to protect the moribund capitalism.

So, no Leninist party is communist party.

[31]

A communist party is a party to work for knowing, and caring the history to receive historical facts to decide the future course of action to fight against capitalist interest for communism.

Factual statement of an event of the past is history. Therefore, history is not a story to believe but a factual statement to know the past. Thus, history is so important to realize the present society along its historical consequence and the cause of emergence of it by the definite terms and conditions of earlier society . So, the history is history to consider it to draw a logical conclusion about the future by using the same historical code of society for change.

Historical fact is that there was no class divided society before 5, 500 yeas though the age of human being are not less than 2,000,000 years. Records shows that the class divided societies are not free from class struggle. Therefore, no class divided society was permanent but changed by the code of society for change -discovered by K. Marx.

The code of society is nothing but the revolt of new instruments of production against existing social relation by the ownership of means of production for the adjustment of new and newer means of production by the new society, which is fit and competent for the proper and perfect utilization of such new instruments of production.

Therefore, there was contradiction in class divided societies among the ruling class and ruled. Thus, there was class contradiction and class struggle for and against old and new social order for competent utilization of new means of the production. So, change of a class divided society is nothing but the outcome of class contradiction and class struggle.

Therefore, the communist manifesto has described the history so rightly as is : “The history of all hitherto existing society is the history of class struggles.”

Capitalist society is also a class divided society based on private property therefore, there is antagonism so, there is class contradiction and class struggle. Therefore, the outcome of such class struggle by working class is the end of capitalism by communism- a classless society.

Capitalist class cannot exist without producing the new and newer means of production by the terms and condition of capital to accumulate and protect it by the reproduction and circulation by contesting and contending in market.

But, the effect of the creations of such newest instruments of production is nothing but more and more production that is

over production. Therefore, the result of over production is stock that is recession , therefore, there is disturbance and problem of circulation. But, the circulation is one of the 2 conditions of existence of capital. Therefore, outcome of recession is so many including bankruptcy of some capitalists, labor unrest, increasing : the price; the rate of jobless and unemployment; homeless; and destruction, and increased repressive actions of state, riot, war etc & etc. Thus, recession is nothing but the revolt of the means of production against capitalist relation. Thereby, finally a contact among the capitalists after every recession to limit and control the production by ignoring the existing condition of capital by losing independent capacity and power to use their means of production even by surrendering the some portion of private ownership to the agreed authorities. The IMF is the one of them but latest creation of the reactionary capitalist class by losing even the independent capacity and power of states.

Certainly sure, consequence of repeated recession is socialization of means of production by disappearing the capitalist private ownership for the competent, fit and proper utilization of new and newest means of production –produced by the capitalism for the capitalist interest but all these are product of social labour.

So, the social ownership of means of means of production is fit and perfect for the socially produce things. So, capitalist society will be disappear by disappearance of the private ownership of means of production by the contradiction of

new and newer means of production and existing capitalist social relation.

Not country or nation but the producer of wage slaves is the capitalist class to produce value therefore, surplus-value that is capital-the unpaid part of commodity or unpaid labour. Therefore, capitalist class as a whole is exploiter and the working class is exploited. Thus, there is antagonism between capitalist and working class. So, the solution of such antagonism is nothing but the end of commodity production by ending the private property to end the exploitation by an exploitation free society, and the that society is communism. Therefore, outcome of such antagonism is communism-the end of class and class interest thereby class rule.

Sure, wage slaves have no birth land or mother land or father land thus, they have no country, but they have a world to win by losing their chain by vanishing the commodity and capital by their united forceful action.

Moreover, there is no reason to be a member of any nation by a worker because, workers have no nation, rather, as a seller of labour power, a wage slave is under the terms and conditions of labour market, therefore, wage slaves are not free from moving to anywhere of the world where they get the market to sale their commodity-the labour power for survival. Thus, workers have no need nationality rather, nationality is against unity of the workers of the world to fight against capitalist class globally. Undoubtedly, human being will be free from all such sectarian identity including nationality therefore, every member of the human being is only human being with full sense of humanity in communism conquer by the working class.

Therefore, the communist manifesto has so rightly described that " National differences and antagonism between peoples are daily more and more vanishing, owing to the development of the bourgeoisie, to freedom of commerce, to the world market, to uniformity in the mode of production and in the conditions of life corresponding thereto. The supremacy of the proletariat will cause them to vanish still faster."

So, its very much clear that the nationality will disappear by the working class.

In this regard the Principles of Communism by F.Engels has described as is: " — 22 — **What will be the attitude of communism to existing nationalities?**

The nationalities of the peoples associating themselves in accordance with the principle of community will be compelled to mingle with each other as a result of this association and thereby to dissolve themselves, just as the various estate and class distinctions must disappear through the abolition of their basis, private property."

Therefore, its very much clear by the above statement that the concept of nationalism will disappear by winning the communism.

Thus, working class have no need to participate in the politics of so –called national liberation . Rather, working class will fight against nationalism by fighting against capitalist class to disappear the all such nonsense identities of human being including nationalism.

Therefore, it's a logical conclusion that the capitalist society will be replaced by communism by the working class by an

unavoidable communist revolution –the combination of last revolt of means of production and final form of class struggle of working class by the facts of history. So, Communism is inevitable.

But, Leninist parties are for nationalism, patriotism and national liberation to serve the so-called national interest and to protect the father or mother or birth land by developing the so-called national economy by accumulating the capital by exploiting the wage slaves for the capitalist interest by confusing and dividing the workers of the world by the nation and country by founding a state of state capitalism to protect the moribund capitalism by denying and ignoring the facts of history that is by not accepting and acknowledging the code of society for change. Therefore, Leninist parties are against history by practicing above mentioned reactionary politics of so-called national liberation or democratic revolution or democratization of state , therefore, they are trying to roll back the wheel of history.

Even, Leninist parties did not care to ignore the statement the communist manifesto in this case as the communist manifesto has described is as :

“ We see then: the means of production and of exchange, on whose foundation the bourgeoisie built itself up, were generated in feudal society. At a certain stage in the development of these means of production and of exchange, the conditions under which feudal society produced and exchanged, the feudal organisation of agriculture and manufacturing industry, in one word, the feudal relations of property became no longer compatible with the already

developed productive forces; they became so many fetters. They had to be burst asunder; they were burst asunder.

Into their place stepped free competition, accompanied by a social and political constitution adapted in it, and the economic and political sway of the bourgeois class.

A similar movement is going on before our own eyes. Modern bourgeois society, with its relations of production, of exchange and of property, a society that has conjured up such gigantic means of production and of exchange, is like the sorcerer who is no longer able to control the powers of the nether world whom he has called up by his spells. For many a decade past the history of industry and commerce is but the history of the revolt of modern productive forces against modern conditions of production, against the property relations that are the conditions for the existence of the bourgeois and of its rule. It is enough to mention the commercial crises that by their periodical return put the existence of the entire bourgeois society on its trial, each time more threateningly. In these crises, a great part not only of the existing products, but also of the previously created productive forces, are periodically destroyed. In these crises, there breaks out an epidemic that, in all earlier epochs, would have seemed an absurdity — the epidemic of over-production. Society suddenly finds itself put back into a state of momentary barbarism; it appears as if a famine, a universal war of devastation, had cut off the supply of every means of subsistence; industry and commerce seem to be destroyed; and why? Because there is too much civilisation, too much means of subsistence, too much industry, too much commerce. The productive forces at the disposal of society no longer tend to further the development of the conditions of

bourgeois property; on the contrary, they have become too powerful for these conditions, by which they are fettered, and so soon as they overcome these fetters, they bring disorder into the whole of bourgeois society, endanger the existence of bourgeois property. The conditions of bourgeois society are too narrow to comprise the wealth created by them. And how does the bourgeoisie get over these crises? On the one hand by enforced destruction of a mass of productive forces; on the other, by the conquest of new markets, and by the more thorough exploitation of the old ones. That is to say, by paving the way for more extensive and more destructive crises, and by diminishing the means whereby crises are prevented.”

Therefore, it is very much clear from the above statement that the revolt of the means of production against capitalist social relation is an unavoidable condition of the capitalist society, because, the conditions of capitalist society are so narrow to comprise the wealth created by the capitalist class by using the new and newer means of production, produce by the capitalist class to protect the existence of capitalist class.

So, capitalist society will disappear by such self-contradictory conditions of capitalism.

But, Leninist parties are not working by considering and caring the above mentioned facts by the communist manifesto, rather, they are ignoring the communist manifesto without any explanation or proving the wrong of the said statement of the communist manifesto and the principles of communism.

Thus, Leninist parties are working against history, thereby they are working against communism.

So, no Leninist party is communist party

[32]

Workers of the world have no need any such political party to occupy the state power except their own party to unite the workers of the world to fight against wage slavery globally to vanish it for their emancipation by their forceful united global action to over throw the capitalist class into the air for a new society where there is no politics to rule to oppressed by the oppressors for the exploitative interest of the capitalist private property holders.

Noted, politics has introduced by the masters to rule the oppressed to serve and protect the interest of private property holders thus politics is for overpowering & oppressing the oppressed by its by-born condition therefore, the end of politics is the end of oppression.

A communist party is a working class party to unite the workers of the world to vanish the politics by vanishing the private property to free the society from oppression by a new society- the Communist society .

But, no Leninist party is working for the same aim to end the politics along with political party. Therefore, Leninist parties are working to protect the politics to serve the capitalist interest by the Leninist politics of state capitalism under the

control of Leninist party. Thus, Leninist parties are working against communism.

So, no Leninist party is communist party.

[33]

Fight against capitalism to return to pre-capitalist economy is nothing but a bad effort to try to go back to the self-dependent but so poor local economy defeated by the capitalism, therefore such bad effort is nothing but a failed reactionary job to try to take the shelter into the hole of the past.

Fight against a section of capitalist class but not as a whole the capitalist class to end the capitalist system is nothing but an inner conflict of the capitalist class thus, such fight is not revolutionary job.

Fight against colonial rulers but not capitalism to disappear the capitalist mode of production is nothing but a self-centered action of local capitalists to occupy the political power by defeating the colonial rules for their sectarian interest to increase the volume of their capital by using the state power by avoiding the competition, contradiction and conflict with capitalists of colonial ruler's country thus, such fight is not revolutionary rather a reactionary job.

On the other hand any such fight against wage slavery to vanish it by wage slaves of the world for the emancipation by

replacing the capitalist society by socialism by social ownership of means of production is a revolutionary job.

So, a communist party is a revolutionary party.

But, Leninist parties are working to fight against colonial rulers by following their politics of so-called national liberation. Thus, Leninist parties are siding even with the defeated reactionary forces to develop the capitalist society. They has been trying to making some sorts of positive sense about the defeated reactionary lords, kings to follow, care and worship to all such reactionary but defeated forces as marking them as great hero or protector of nation to spreading the nonsense nostalgias to divide the workers into the ocean of false stories as considering history for creating an artificial atmosphere to depressed the workers to create their inability to think properly even about their class identity and class interest to identify their exploiters to fight against them properly for their emancipation thereby, the real exploiters are not traced but hide and safe by such fabricated stories of national pride of national heroes.

Therefore, Leninist parties are working to hide the real exploiters but not working to fight against capitalist class as a whole to fight and vanish the exploitative capitalist system by such nonsense politics of glorification of so-called glorified but defeated lords, kings, etc by revolutionary capitalist to create a modern capitalist world. But, the communist manifesto has described about the historical role of them as is:

“Each step in the development of the bourgeoisie was accompanied by a corresponding political advance of that class. An oppressed class under the sway of the feudal nobility, an armed and self-governing association in the medieval commune⁽⁴⁾: here independent urban republic (as in Italy and Germany); there taxable “third estate” of the monarchy (as in France); afterwards, in the period of manufacturing proper, serving either the semi-feudal or the absolute monarchy as a counterpoise against the nobility, and, in fact, cornerstone of the great monarchies in general, the bourgeoisie has at last, since the establishment of Modern Industry and of the world market, conquered for itself, in the modern representative State, exclusive political sway. The executive of the modern state is but a committee for managing the common affairs of the whole bourgeoisie.

The bourgeoisie, historically, has played a most revolutionary part.”

Therefore, its very much clear from the above statement that the revolutionary capitalist class has played ‘ a most revolutionary part’ for defeating the all such pre-capitalist economy by the modern industry and world market. Thus, the working class-the product of capitalist class have no need to feel proud or sympathy for any defeated boss, king or lord by the capitalist class to make a capitalist world to fight against the capitalist class for their emancipation. So, working class have no need to fight against colonial rules to restore the defeated forces to help and cooperate the local or native capitalists to increase the exploiting power of the local capitalists by creating any such so-called national state.

Sure, working class have no interest except losing by participating with any side of the contenders of capitalist interest. Thus, the participation of workers in such capitalist conflict is nothing but suicidal job.

So, as a working class party , a communist party have no scope to do the same politics to restore the defeated forces to serve the capitalist interest as a whole.

But, Leninist parties are working for the restoration of such defeated forces by practicing the politics of so-called national liberation by ignoring the above mentioned statement of the Communist manifesto. Thus, Leninist parties are not revolutionary rather reactionary party by practicing such nonsense politics of patriotism, nationalism, and glorification of the historically reactionary forces.

So, no Leninist party is communist party.

[34]

A communist party is a party with communist principles for organizational practice. Therefore, each and every member of the communist party is equally dignified and thereby right and responsibility of all is same in the communist party. Thus, there is no discrimination and disparity among the party members to take and implement any decision. So, a communist party is a party of equals.

But, Leninist parties are with the policy of "democratic centralization" for organizational practice, which is nothing but a scope to exercise the dictatorial power of the party bosses by the not only " great " teaching of the " great "

teachers and leaders recognized by the party but with " great" influence to gain the brutal majority opinions to dominated the minorities views therefore, the such policy of democratic centralization is nothing but an effective policy to create disparity among the party members by undermining some by denial the equal dignity of all of the party and thereby, its against freedom of the members to do work freely in the party.

Therefore, no Leninist party is free from dictatorial exercise by the practice of such anti-communist organizational policy based on hierarchy, Thus, no Leninist party is a party of equals.

So, no Leninist party is communist party.

[35]

Family, IMF to family ,all such institutions, organizations, firms etc originated from the private property to serve and protect the private property along with their rules and regulations, concepts, creeds, ideologies, customs, cultures, traditions etc & etc will disappear by the disappearance of private property.

So, a communist party is a party for working to win the same aim. Thus, a communist party is free from all such nonsense concepts, customs, cultures, ideologies etc.

But, Leninist parties are not against all such nonsense customs, cultures etc rather, they are for celebration of so many things including birth and death anniversary by following the traditional concepts, customs, cultures etc.

Even, J.Stalin has re-introduced the pyramid culture to protect the death body of Lenin to create such cultural environment of the Farah Dynast to enjoy the same type so-called honor, respect, salute etc and worship by the subjects. Noted, Stalin, he him-self had received such nonsense honor and salute even by the central organ of the party in his life time.

But, the end of self-action of a living element is death. Therefore, there is no scope to act or react by a dead body for any reason. Undoubtedly, the dead bodies are out of range to hear or listen to any one by any way. So, a dead body has nothing to do with anyone. Therefore, there is nothing to celebrate the such death anniversary, what introduced by the masters to create a false concepts that they are doing every thing for the well fear of their families, dynasties, subjects, and slaves what they did in their life times as they are immortal to do the same as they were graced and powered by the unseen power holders –the claimed creators and maintainers of the world thereby they are alive to look after the subjects, disciples etc of them. The fabricated but ill motivated political creed for such culture is that the soul –a only and single one organ is the only and single one factor to live but the such important soul is immortal.

But, sorry there is no such soul but have a heart in the body to pump the blood.

Noted, Dr. Andreas Vesalius (1514-1564) – a professor of the University of Padua and the personal physician of King Philip of Spain, at first had published accurate, detailed drawings of human anatomy and he was the first to show that

the heart has four chambers, the lungs have two lobes; and the blood vessels originate in heart, not the liver as was thought before. Thus, no one before, Dr. Andreas knows the structure and function of the heart, what the masters had marked as a soul- the immortal thing. Though, there are claimed 1 billion 1 hundred creators and maintainers of a single Earth and all others creatures of the earth. But, none of them is know the diameter of the Earth.

Sure, only the brain can think to decide the works of body, thus, the brain is the control centre of the body.

On the other hand, birth of any one is nothing but a fruit of sexual union of a male and female yet. Sure, every new born baby is nothing but a combination of 23 pair of chromosomes and 23 chromosomes from each of their producers. Thus, there is no specialty rather birth is a normal event. So, there is nothing important by such normal event of birth of anyone, rather all are equal by born condition and all are under the certain terms and conditions of existing society to live.

But, masters and lords has had spread so many false and fabricated stories about their birth and meaningless importance of birth of them to hypnotize their slaves and disciples to create such bogus impression about their magical power by birth as they were claimed divine right holder thus, they have capacity to do anything including pardon and killing, on behalf their claimed source of power and right. In fact, such power to do the same and what they did is nothing but the political power.

Therefore, masters and lords have introduced so many functions to celebrate to wish and worship them by various

manner including celebration of their birth day anniversary. There are calendars introduced by the masters or disciples of masters and lords or beneficiaries from such lordship to high light and memorize the such parasitic masters or lords by counting the starting year from the year of their birth. There are so many books or epics to glorify the importance of birth of the masters and lords and yet there are so many places to pray or beg to them for well fear of their disciples by getting relief from the everyday miseries and sufferings but from the capitalism. Still some places are considering the holy places due to birth of any master or lords. There are so many songs on importance of the birth day and birth places of such masters and lords but privileged , beneficiaries and opportunists from the existing social conditions to rule the others by using the political power as considering them as divine right holders thus, they are not only different from others but also extra-ordinary to teach, to lead, to guide, and to do many more. So, celebration of birth day anniversary of them is so useful and important festival to get their 'kind' attention to get relief. So funny!

Sure, by following and caring such nonsense concepts about the so-called great man, the Leninist boss Stalin has introduced the following song as national anthem of the USSR, in the year-1944, as is:

“ Though days dark and stormy where Great Lenin led us,

Our eyes saw the bright sun of freedom above and Stalin our leader with faith in the people, Inspired us to build the land what we love,” How funny!

National anthem of the DPRK is more waste than the anthem of USSR by Stalin.

But, the communist manifesto has described that “The Communist revolution is the most radical rupture with traditional property relations; no wonder that its development involved the most radical rupture with traditional ideas.”

Therefore, a communist party is a party to work to do the same.

But, Leninist parties are not working for such radical rupture with all such traditional customs, cultures, including celebrating of birth or death anniversary. Rather, Leninist parties have been nourishing and spreading the poisonous cultures, customs, traditions introduced by the masters by celebrating the death and birth anniversaries of their masters- Lenin, Mao, Ho-Chi, Kim etc too.

Therefore, Leninist parties are not working for the same aim and object of a communist party. Thus, Leninist parties are working against working class interest.

So, no Leninist party is communist party.

[36]

A communist society is free from class and class rule by ending the exploitation, by ending the wage slavery, by ending the commodity production, by ending the capital, by ending the all such class instruments including state.

A communist party is a party to work to win communism- the stateless society.

Sure, there was commodity, capital, wage slavery, exploitation, brutality, killing, class and class instruments etc in USSR, a state founded by the Bolshevik party by a military coup by Lenin and his associates, though they claimed that they have founded socialism by this state. Records shows that the USSR was a so dictatorial state to control the labour market so brutally by its different weapons and instruments including arms forces by the politics of Leninism and laws, decrees, and executives decisions of Leninist bosses.

But, all Leninist parties, has been acknowledging and claiming that the USSR was a socialist state thereby, it's the first socialist country in the world. Therefore, the claim of Leninist parties at USSR is nothing but a false and bogus political propaganda to confuse and provoke the workers of the world to serve the capitalist interest by such lie. Therefore, Leninist parties are liar about socialism and USSR too. Thus, Leninist parties are working to spreading the such false and bogus stories about USSR to form a state of state capitalism by following the USSR.

So, no Leninist party is communist party.

[37]

Communism is a classless society with an association of all by all and for all of the world.

The communist manifesto has described that “In place of the old bourgeois society, with its classes and class antagonisms,

we shall have an association, in which the free development of each is the condition for the free development of all.”

Therefore, its very much clear from the above quotation of the communist manifesto that there is not state in socialism, rather, the replacement state and all other weapons and instruments for class interest by an association of all is the condition of free development of all of the world .

Therefore, a communist party is a party to work for a classless society with an world association to free the whole human being by vanishing the all weapons and instruments including state, IMF etc , originated from the private property.

But, nothing to do to disappear the state rather, Stalin was one of the 3 key founders of the IMF, to control the world economy to serve the capitalist interest to protect the moribund capitalism.

Sure, no Leninist party is working to disappear all such organizations, institutions including the IMF, originated from private property for the exploitative interest. Therefore, Leninist parties are working to serve and protect the exploitative interest by practicing their such nonsense politics but against working class. Thus, Leninist parties are not working with the same aim and object of a communist party to win the communism.

So, no Leninist party is communist party.

No doubt, the origin of all Leninist parties is the BOLSHEVIK PARTY, founded by Lenin and others.

But, Bolshevik party was never a communist party to unite the workers of the world for a communist revolution by the workers of the world to end the wage slavery for communism by the by born declaration of it with its 30 points programme, a fraction of Russian Social Democratic Labour Party (RSDLP), formed at the 2nd Congress of the party, 1903.

The Menshevik Party, was with the same 30 points programme but difference of it was Leninist organizational policy-the democratic centralization with Bolshevik party. Undoubtedly, 30 points programme of the RSDLP thereby Bolshevik party was never a socialist but a capitalist programme. Because, there was not a single point to end the wage slavery to end the exploitation, by ending the commodity production for communism, rather there were all programmes for capitalist interest to develop the capitalist mode of production at Russia to increase the volume of capital by exploiting the wage slaves by replacing the Tsarist regime . Thus, Leninist parties are not communist but capitalist party by their origin.

So, no Leninist party is communist party.

[39]

A communist party is a party to work to end the politics thereby, to end the utility of political party by ending the class rule by communism by working class.

Therefore. communist party will abolish by it's self-term.

But, there is no such declaration or provision to abolish the Leninist parties in their respective manifesto or constitution. Thus, Leninist parties are not working to end the role of political party by abolishing the Leninist parties too.

So, no Leninist party is communist party.

[40]

The communist manifesto was written for the communist party by Marx and Engels-1847. Therefore, it's a basic and fundamental document for a communist party to work for a communist revolution for communism. No doubt, the communist manifesto is the death sentence for capitalist class. Undoubtedly, yet it's valid and effective with all limitations of it.

Therefore, a communist party is party to support, depend and protecting the communist manifesto, in general but by marking the error or limitation of it.

But, Leninist parties has been determining their politics by ignoring the communist manifesto even on the question of capitalism, historical revolutionary role of capitalist class to develop the capitalist society, misdeeds of reactionary

capitalist class, communist revolution, cause of communist revolution, effect of unavoidable communist revolution, actions and role of classes including reactionary peasants in capitalism, revolutionary role of working class to replace the old capitalist society as alone revolutionary, etc & etc. Though, the Leninist parties has been claiming that they are working on the basis of the communist manifesto, which is totally false and lie to cheat the working class by using the importance of it to serve the capitalist interest. For the same reason the CPSU and CPI(M) has disfigured it. Thus, Leninist parties are not working for communism by committing such crimes against working class by misinterpreting, disfiguring and ignoring the communist manifesto too.

So, no Leninist party is communist party.

[41]

Working class is only and alone the best hope for the whole human being to confirm a most modern, comfortable, lovely and ever green life with uninterrupted peace for all of the world by a most modern society by defeating the reactionary capitalist class by the united forceful action of workers of the world.

But, there is no working class party to unite the workers of the world. In fact, there is no such organization after the First International. Though, the claimed 2nd International was formed with a commitment to implement the aim and objects of the First International. But, the official leaders of it has betrayed with its declared commitment by adopting the politics of so-called “right of self-determination of nations” at its London Congress, 1896. Thereby, it has confirmed its

own disappearance by the consequence of practicing of the said betrayal politics. But, the Bolshevik party was the by-product of it, with the same political line for the right of self-determination of nations.

Therefore, workers of the world are not only divided but also overcast with so many nonsense concepts, ideologies including Leninism. Thus, a worker is a worker in practical life but in thinking they are not free from illusion of the private property for a better life though the cause of all miseries and sufferings of workers is nothing but the private property. So, such self-contradictory condition of a worker is not only harmful but also suicidal there-after, helpful for the capitalist class.

The root cause of such self-contradictory behavior of a worker is nothing but the absence of a communist party to know the facts, to act or react by the factual statement of the situation, to face the capitalistic conspiracy and make sure the abandoning the all poisonous and harmful concepts, ideologies etc manufactured by the capitalist class to disown and deny the class interest and class identity of working class by the working class it-self to serve and protect the capitalist interest and capitalist society by practicing the science to win the unity of workers of the world.

Undoubtedly, unity is strength, unity is confidence, unity is courage, unity is the power and thereby the unity is not only effective but also the motive force to fight the opponents to win.

Therefore, a communist party is the store and source of strength for the working class to know the facts, thereby, to

aware the strongest strength of a unified working class to win the self-confidence and self-determination to fight against wage slavery with victorious courage to win its goal by the unconquerable power of united force of workers of the world. So, a communist party is the best hope of the working class to defeat the reactionary capitalist class to live as a self-conscious and self-confident class by practicing the science to know the science, to understand the science and to care the science by rejecting and abandoning the all nonsense ideologies, concepts, creeds etc, producing and spreading by the capitalist class.

But, Leninist parties by their origin is not a confident party to do work for the working class. Because, the 2nd International has lost its existence and the Bolshevik party has taken its place in the museum of the history. Moreover, no Leninist party have scope and power to unite the workers of the world for a communist revolution for communism because of their limitation by the limit of Leninist politics

Therefore, Leninist parties are not the source of confidence of working class, or instrument of unity of workers of the world. Rather, Leninist parties has been working to confuse and divide the workers of the world. Thus, Leninist parties are working against the working class.

So, no Leninist party is communist party.

N: B: - there are some self-declared Leninist parties with self-contradictory declaration are working in global range but with contradictory statement with Leninism even by misinterpreting the Leninism. In fact, no Leninist party have scope to work globally for a communist revolution by the limitation of Leninist politics- the politics of claimed different types of democratic revolution to occupy the state for the state capitalism and the right of self-determination of nations to liberate the nations. So, no global party is genuinely Leninist party or Leninist parties are not global party by the condition of Leninism.
