## Preamble:

The Solar System (including the Earth) formed from a large, rotating cloud of interstellar dust and gas called the solar nebula. By product of the Sun formation is water and life on Earth could have arisen from inanimate matter. There is a law for creation and that law is Science; cause and effect of every change & action has a law, therefore law of nature, life as well as society is science. But, exploiters have been using science only for creating wealth, capital and power. They do not care to follow science and the law of science, above all for their ill motive and bad intention they have used the unscientific socio-political creeds for their petty interest. Even till today they are very much successful to exploit and control the working class by private ownership and using unscientific philosophy, though workers are creating all the value, therefore they are the owner of all property. But the working class has no property except labor power for sale because there is private ownership that is capitalist society which is contrary & everlasting uncertainty, and all social misery and mental degradation of working class is due to private property.

The working class is wage slave and science, is confined by capitalist class. But development of scientific instruments that is inventing, creating & producing the new instruments of production is an on going process of capitalism. So, there is an antagonistic relationship between science and capitalism, as well as capitalist class and working class. Science is more powerful than capitalism and capitalist is zero without the working class. However the working class is sufficient enough to maintain themselves and complete the production without capitalist class. Therefore science and the working class are friendly force for development and freedom. And, capitalist is unnecessary and disturbing element of society. Thus capitalism is enemy of development, science and the working class.

Unity of Working Class and Science is a must for abolition of private property that is abandonment and annulment the scope of misappropriation of Surplus-Value. Surplus-Value is produced by working class , but it is being misappropriated by capitalist class, therefore capital is unpaid labor or part of unpaid product. Therefore capitalist is exploiter, fraudster, criminal and above all unscientific. So, capitalist society is unscientific, unfair, crime creator, crime dependent, crime defender, heinous, terrible & uncertain, war prone and is against labor, creation, progress, modernity, equity, peace, freedom and science & scientific society. Therefore, to make science, society & working class, as well as human being free, demolition of capitalism is a must. So, it is urgent to abandon the uncivilized, unscientific & inhuman capitalism by abolishing the private property that is destruction the process of capital accumulation and abolition of the Class & State, and state protector or state related or state defender organizations & institutions. Historically and scientifically it is logical, valid and justified, because-

(a) 13.73 billion years aged Universe's Space is at least 93 billion light years .In 2008, The Universe is : Dark Energy -72%, Dark Matter-23% Regular Matter-4.6% & Neutrinos-Less 1%. Mmore than 100 billions Galaxies is in the observable Universe and in one Galaxy, 10 million to 1 trillion Stars exist. Most star between 1 billion and 10 billion years old and 6% of all known stars in solar neighborhood are White dwarfs, are becoming black dwarfs which is sufficiently cool to no longer emit significant heat or light. And 4.57 billion years aged Star that is The Sun which is the source of most of the energy on Earth, will exist no more than 5.33 billion years;

((b) The Atom have negatively charged electrons and positively charged protons and electrical neutrons .Thus, there is electromagnetism and therefore there is relation within the atom is unity of contradiction that is Dialectic. That's why every matter is moving, changing and transforming;

(c) Antagonistic relation of Capitalist society is under law of Dialectic; and

(d) History of politics & political kingdom, class & state is only near 5,500 years but history of human being is near 200,000

years , therefore once–politics, class and state did not exist; now state is defunct and at the brink of graveyard with capitalism.

Therefore, both state and capitalism are hazardous & burden for development & society and obstacle of freedom and independence.

Only stateless-classless society is the scientific society. In scientific society, all types of unscientific creeds, views and thoughts will disappear, even capitalistic mood that is falsification, fabrication, hypocrisy, cheat, fraud, lies, etc. will be part of the past and military arsenals, arms and ammunitions will be seen in historical museums, therefore that is the eternal peace and peaceful society with numerousness and the basic principle is co-operation with the best ability and capacity of each and every one for conquering the nature. So, with the collaboration of science, the working class as well as human beings will achieve freedom and independence and will be the Master of Nature. To conquer that scientific society, unity and solidarity of Science and working class is a must. Therefore a Global Information Organisation is important and essential to achieve the unity and solidarity of science and the working class.

For these reasons, Information Centre for Workers Freedom has been founded on 23<sup>rd</sup> October, 2009. In fact it is a transformation of “Community Development Library” of Jagatpur, established in November, 1981.

Therefore, motto of ICWF is to know science, practice science & work for science and scientific society.

So, the main slogan of the ICWF is Science, Science & Science for Freedom.

### **1. Aim & Object:**

To co-operate and assist to build up a scientific society.

### **2. Declaration & Stand For:**

(a) Science of Socialism- invented, formulated and explained by Karl Marx & Fredric Engels.

(b) Leninism is the misinterpretation, distortion, decomposition and corruption of Science of Socialism;

(c) Lenin's Party was for so-called democratic & false socialist revolution in one country and to protect & support the interest of distressed capitalist & to emancipate the so called nationalist bourgeois on the basis of false & fabricated formula of Right of Self Determination of 2<sup>nd</sup> International . Though, according to Communist Manifesto,

“The Communists are further reproached with desiring to abolish countries and nationality.

The working men have no country. We cannot take from them what they have not got. Since first of all the proletariat must acquire political supremacy, must rise to be the leading class of the nation, must constitute itself *the* nation, it is so far, itself national, though not in the bourgeois sense of the word.” And ,

“The theory of the Communists may be summed up in the single sentence: Abolition of private property.” And,

“Though not in substance, yet in form, the struggle of the proletariat with the bourgeoisie is at first a national struggle. The proletariat of each country must, of course, first of all settle matters with its own bourgeoisie.”

But Lenin and all other Leninists are for national bourgeois and therefore they are for nationalism, patriotism & finally for state capitalism. Though, nationalism is a bogus bourgeois concept which is antagonistic with internationalism of working class, patriotism is love for private property and it was fabricated as an artificial emotion with bad intention for exploiters political interest and no doubt state capitalism is capitalism.

By the declaration of Leninist parties and Leninist States- Lord Lenin and Leninist Lords are ‘Brilliant and Genius’, ‘Great Teacher’, ‘Great Leader’, ‘Great Liberator’, ‘ Savior of Nations’ , and ‘Ever Victorious’ like Mythological Heroes. To some extent Lenin and Leninist Kings are followers of Emperor of Pharaoh Dynasty of Egypt and, The Book of Pyramid is the philosophical

basis of theoretical concept of Lenin's democratic centralism. And like the King Pharaoh or King Romulus, Lenin and other Leninists had created and nourished their Personal Cult. With all other Leninists & Lenin's kingdoms are capitalist state to monopolies the instruments of production and for misappropriate the Surplus-Value.

A state controlled by Lenin or Leninist lords with political elites and dominated by personal cult protector armed forces that is police, special police and military for misappropriate the Surplus Value is a state of state capitalism and that's the socialist state; a fabricated formula of so called socialism was formulated by Lenin himself. Even, a socialist state defined by Lenin could be constructed and survived if it is undisturbed by capitalist ruler of neighboring countries or with the aid or help of foreign capital and with the collaboration of ex-bureaucrats in exchange of high salaries and bribery. So, Lenin, and Leninist Trotsky, Stalin, Mao, Ho Chi Min, Hoxa, Cha-Ces-Ko, Titu, Kim, Gorbachev and all other Leninist- Maoist state executives and party lords are Gang of Criminals and their followers, but not beneficiaries, are stupid according to Karl Marx & International Working Men's Association .

(d) Lenin, Trotsky, Stalin, Mao and all other Leninist-Maoist companies are friends & saviors of old bourgeois society which was in dead-bed and now at the brink of graveyard.

(e) Socialism is not the question of politics, but it is a social issue.

So, socialist is social worker.

(f) Capitalism is the foundation of Communism. Therefore, replacement of capitalism is Communism is a new society. There is no private property, no selling-buying, no surplus-value, no capital, no exploitation, therefore no class; Thus, there is no state for class interest.

(g) Abolition of private property with all rights of inheritance is the primary task of socialism and socialization of property for annihilating the scope of misappropriation of Surplus-Value by any one and common property for planned and proper production and distribution with rearrangement of population for settling in safe zones of the world and arrange and accommodate shelter, food,

clothes and other fundamental essentials and necessities of good health and scientific life for all and vanish the heinous and barbaric concept of gender which has been used for identifying some one only on the basis of some particular organ which is difference indicating organ of body for shape & nature as recognized as determinant of differences to producing value with work ability which is not supported by human anatomy but for the petty interest of parasitism division- partition has been creating on the basis of particular organ as considering more & less workable person has to create discrimination & hostility with man to man and change & update the Grammar for evolving a simple and single language by the scientific evaluation and scientific evolutionary process and to demolish, abolish and abandon the mythical and unscientific word or words bearing the meaning or sense of master-slave relation or word use for domination, subordination and division among the human beings and to create and invent appropriate words for identification of a object that means exact, proper and appropriate description and function that is definition or actual & accurate motion or concrete existence or facts & figure of anything and to adopt new words which are proper and perfect for discrimination and hostility-free human relations and rename the places which represent personal cults or unscientific events and reform the Calendar with abolition of the mythical names of months and days as well as names of planets and the Milky Way or Galaxy is immediate goal.

(h) Socialism is not State, but Global Society without state boundary; It will be conducted by a world peoples association.

(i) Socialism, that is the emancipation of labor is neither local nor a national, but a social problem. Embracing all countries in which modern society exist, and depending for its solution on the concurrence, practical and theoretical of the most advanced countries;

(j) Neither a national organisation nor a political party but a World Association of Working Class for Classless Society is must and

that is the fundamental instrument, pioneer and organizational condition of socialism;

(k)World Bank-IMF is the world lord, savior, protector and dictator of states as well as capitalism as was created by F.D. Roosevelt, W. Churchill and J. Stalin. So, destruction, demolition, abandonment and abolition of WB-IMF with their member states and all other institutions and organisations which are in favor of private property is must for socialism;

(l)Capital is a collective product, therefore capital is not only personal but social power. But in capitalism the ownership of capital is private, which is based on the antagonism of capital and wage labour. So, capitalist relationship is discriminatory, contradictory & antagonistic. Moreover, production for accumulation of capital is only motive of capitalism. Therefore excess or over production is due & nature of capitalism and it's a revolt of instruments of production against capitalist relations which is called Crisis of Capitalism. Crisis has severely thrashed working class and rapidly declassed too many capitalists. Repetitions of Crisis of Capitalism is a must and that is the incurable birth disease of capitalist society that's why the crisis of capitalism is unsolvable. Thus the bourgeois society has been producing more and more destructive forces i.e. new & newest instruments of production and working class of capitalism. So, for the common interest of both of the friendly forces are over through the capitalist class for ever in grave. Thus for successful overcoming the crisis of capitalism is proper, perfect & consistent reaction & action of working class with revolutionary instruments of production will vanish & demolish the unscientific capitalist society for the foundation of a new society, which is scientific that is fit and perfect for scientific instruments and collective production that is classless society and that is why old capitalist society will not survive;

(m)Replacement of capitalism by socialism must be conquered by the Working Class; and emancipation of working class is work of its own self.

(n)Unity–Solidarity and Organic Unity of the Working Class of the World is the basic requirement and fundamental condition of Workers Freedom.

So, the Information Centre for Workers Freedom is to search, collect, save, circulate and exchange the relevant information all over the world to initiate & co-operate to build up a World Association of Working Class for Classless Society .
