

Leninists are not caring the Manifesto of the communist party rather, they are ignoring and denying it

No disciple of liar Lenin has proved that the manifesto of the communist party, written by Marx and Engels is wrong or bogus or false about :

(1) Capitalism - a global society of numerous commodities with a world market based on selling and buying but rooted on private property and the society has sprouted from the ruins of feudal society with a motto to accumulate capital- the unpaid part of the commodity;

(2) The revolutionary capitalist class has played a revolutionary role to create a capitalist world with a world

market by its own image by the existing conditions of capital- the unpaid labor;

(3) The progressive capitalist class has put an end to all feudal, patriarchal, idyllic relations wherever its got the upper hand;

(4) Working class – the producer of commodities is the product of the exploiter capitalist class to accumulate capital- the dead labor;

(5) The relation of the capitalist class and the working class is antagonistic by birth condition of capital- the fruit of exploitation of wage slaves;

(6) The capitalist class can not exist without constantly revolutionizing the instruments of production and thereby, the relations of production, and with them the whole relations of society;

(7) Recession – the revolt of the instrument of production against the capitalist relation of production is an unavoidable and non-curable disease by the existing conditions of capital and by the existence condition of capitalist class;

(8)The theoretical conclusion of the communists are in no way based on ideas or principles that have been invented or discovered, by this or that would -be universal reformer;

(9) No charge against communism made from a religious, a philosophical and , generally, from an ideological standpoint is considerable to examine;

(10) Capitalism has become old before the manifesto of the communist party has published-1848;

(11) Cause of communist revolution - the culmination of contradiction of capitalist class and the working class by following the code of society for change ;

(12) Communist revolution- the ever biggest, ever important and ever impacted event of the world to replace capitalism by communism- a scientific society of equals , free from commodity, selling and buying, wage slavery, exploitation, capital, class and class rule is the job of working class alone;

(13) The range of communist revolution is neither local nor national but universal;

(14) The replacement of global capitalism is not possible in one country alone for the emancipation of the exploited working class- the

producer of capital- the surplus-value and thereby, the united action of leading civilized countries at least is one of the first conditions for emancipation by emancipating the whole society by abolishing private property- a legal but totally unfair and unjustified object- the cause of all evil things including politics- the supreme policy of all evil policies thus, unity of workers of the world is the first condition for the emancipation by conquering communism- a most modern society, with a world association which is the condition for the development of each for free development all by replacing capitalist society along with its all philosophical and political ideas and instruments including political party and state thus, communism is free

from the rule of men by men so, communism is free from discrimination among the human being even by sex and thereby, communist revolution is the most radical rupture with traditional relations and most radical rupture with traditional ideas so, communism is free from all traditional traditions, customs , rules, culture etc;

(15) All nations are inter-dependent from every direction in capitalism therefore, no nation have ability to liberate it in capitalism thus, no nation have capacity to practice the right of self- determination of nations under the rules of capitalist world market for make sure the national liberation practically moreover, national differences and antagonism between the peoples are vanishing

even by the freedom of trade and commerce of the ruling capitalist class in capitalist market – a world market , to uniformity in the mode of production and in the conditions of life corresponding thereto and finally, the working class will vanish all concepts of nationality by the communist revolution for communism- a scientific society of a single one and undivided mankind with a sense of humanity – a fellow sense of everyone for the whole human being;

(16) Workers have no country and nation but they have a world to win by losing their chains originated from the capitalist property by defeating and vanishing the capitalist class by abolishing the capitalist property- the cause of all sufferings, miseries ,

degradation , hardship etc of the working class;

(17) The lower middle class, the small manufacturer , the shopkeeper, the artisan, the peasant all these are not only conservative but also reactionary;

(18) Communists have no interest separate and apart from the working class- the genuine communist revolutionary class and thereby a communist party is a class party of the working class alone to work to unite the workers of the world for the communist revolution for communism- a scientific and humanitarian society, free from war, killing, rape, ferocity etc nonsense and thereby, communism is a society of uninterrupted peace, liberty and freedom; And

(19) Fall of capitalism and the emergence of communism is equally unavoidable and inevitable by the consequence of self-contradiction of capitalism- the last and final exploitative and class divided society. But, the disciples of lair Lenin- a gang leader of the capitalist exploiters as Lenin was the chief buyers of the labor power of the wage slaves of his state by paying wage by his choice to produce commodity to accumulate capital as he was the chief executive of his state- a state of state capitalism – a waste form of so waste capitalism , founded by the Bolshevik party – a reactionary capitalist party by its founding declaration ,written by Lenin by a planned military coup at night are:

(1) Ideologist by supporting and following Leninism- the corruption of science of communism discovered by Marx. Leninism is the product of Lenin- an absolute and extreme fascist and he made it from his own brain- a claimed talented brain;

(2) Working for the development of national economy for the national interest by capturing the state power or forming a new state by dividing an old state by uniting the so-called people of a nation or state;

(3) Working for a new democratic state for the national interest for the liberation of nation;

(4) Working for capturing the state power by a planned military coup by following Lenin – a historical liar even about socialist revolution and socialism by claiming his state of state

capitalism as socialist- a new society but the foundation of communism , what tried in Indonesia , Afghanistan, and by war what did Leninist big boss Mao and other Leninist leaders and by election what did CPI(M) and some other Leninist parties of various states;

(5) Working for the national liberation by practicing the politics of national liberation, new democratic revolution, so-called peoples democratic revolution by forming a state of state power;

(6) Working for protecting private property by following the politics of so-called land reform policy and state property- a property to use to produce commodities to accumulate capital;

(7) Working to uniting the the lower middle class, the small manufacturer , the shopkeeper, the artisan, the peasant, so-called nationalist capitalists and claimed progressive intellectuals ;

(8)Working by supporting and defending the capitalist constitutions of different states , made by the well known capitalist party to serve and protect the capitalist property and capitalist interest;

(9) Working to divide and confined the workers of the world by nation and country by practicing the politics of so -called right of self-determination of nation by following Leninism—the politics of so-called right of self-determination of nations and state capitalism to protect the moribund capitalism, currently, ruled

by some global organizations including IMF-the controller of the world economy to avoid recession but failed; And

(10) Practicing the customs, traditions, rules, cultures etc introducing even by the dirty rulers of the brutal slavery society even by celebrating the birth and death anniversary of Lenin, Trotsky, Stalin, Mao, Kim, etc Leninist bosses by considering them as an extraordinary by confirming others as ordinary – a culture of servility.

Therefore, its very much clear that no Leninist party is caring the manifesto of the communist party to work for communism- a society , free from lie, cheating, forgery etc.

But, a communist party is working by supporting and defending the

manifesto of the communist party thus, no communist party have scope to ignore and deny the manifesto of the communist party for working for communism. But. Leninist parties? Totally ignoring and denying.

Sure, the manifesto of the communist party has a historical limitation and there are some errors in it but yet it's a valid and effective documents to work for communism . In fact, its not only an important book to care by every communist but also a declaration of death sentence to the reactionary capitalist class.

Noted, anyone can differ with it by proving its wrong or falsification scientifically or anyone can identify its limitation and errors for effective use of it to work for communism but none can distort and disfigure it – a

misdeeds by the standard of capitalist rules also except a political fraud to protect the moribund capitalism by using the distorted and disfigured copy of the manifesto of the communist party to confuse the workers even about capitalism – the foundation of communism- a new society won by the working class by the united forceful action of the workers of the world .

But, Leninists are not only ignoring and denying it to work to protect the moribund capitalism by dividing the workers of the world by nation and country too. Even, CPSU has distorted it and the CPI(M) has manufactured a fake manifesto of the communist party by disfiguring the original to justify its misdeeds against the workers by working by

supporting and defending the communal, non- democratic and capitalist constitution of India- a founding member of the IMF- the ever mightiest syndicate of the world made by the exploiter ruling classes.
